

ClinicOS

Run your entire clinic on WhatsApp + Calls

ClinicOS is a modern, WhatsApp-first SaaS platform designed for small and mid-sized clinics in India. It replaces manual work, missed appointments, and paper-based processes with a **smart, automated digital receptionist**—powered by messaging and voice.

Built using Meta WhatsApp APIs and integrated calling systems, ClinicOS helps clinics **save time, reduce no-shows, and increase revenue**—without requiring any technical expertise.

WHAT CLINICOS DOES

ClinicOS automates the entire patient journey:

👉 Booking → Reminder → Consultation → Prescription → Revenue tracking

Everything runs seamlessly through **WhatsApp and automated calls**, the tools clinics and patients already use daily.

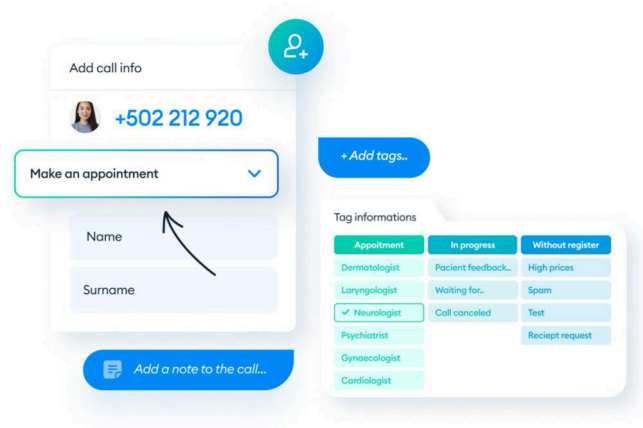

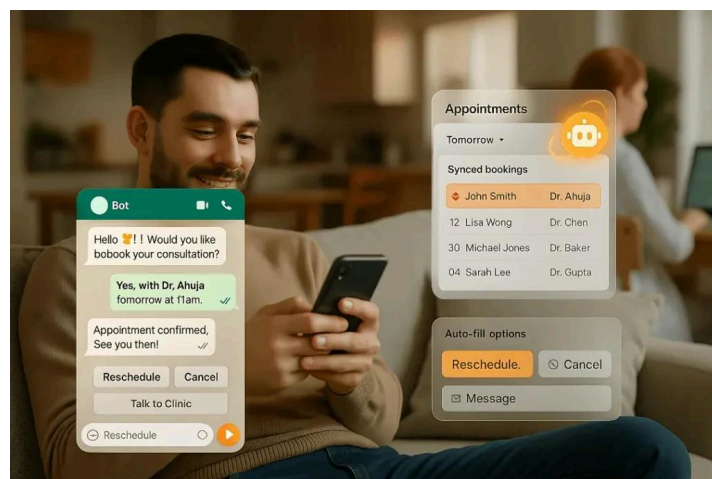

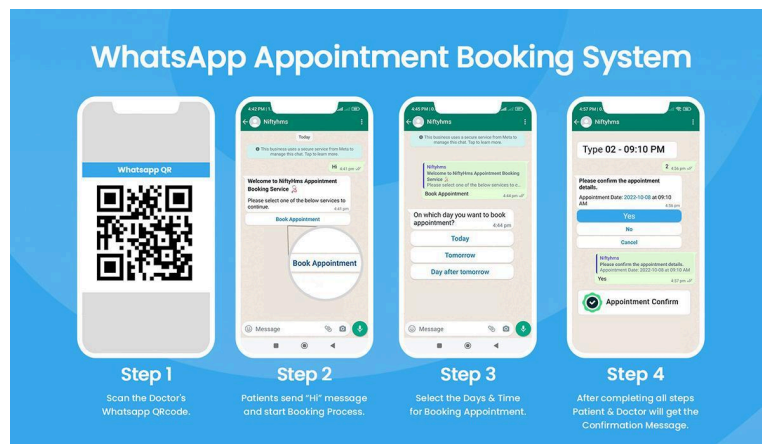

CORE FEATURES

1. Dual Appointment Booking (WhatsApp + Call)

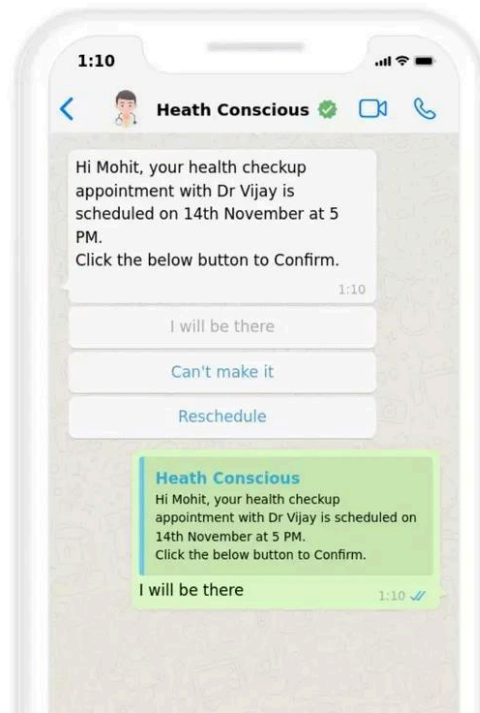

- Patients can book via WhatsApp chatbot or phone call (IVR)
- Instant slot selection and confirmation
- No receptionist required

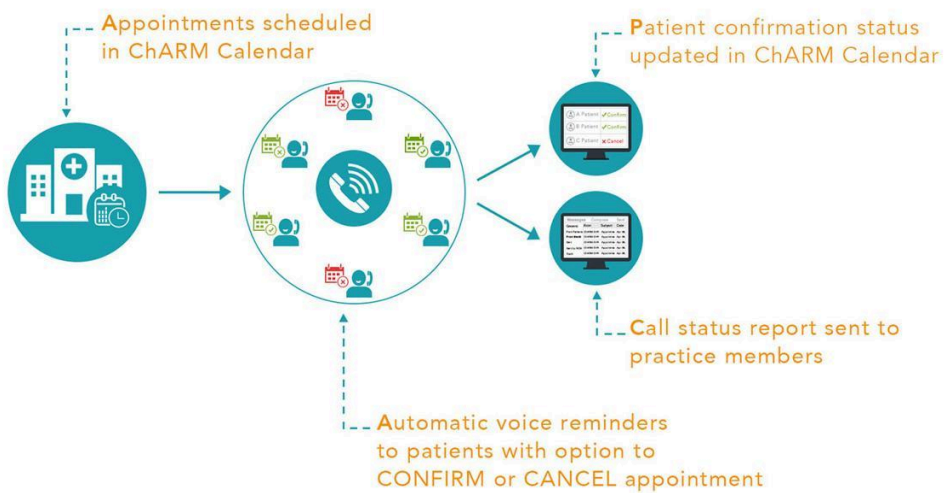

💡 *Makes booking effortless for every type of patient*

🔔 2. Smart Auto Reminders (Revenue Saver)

- WhatsApp reminders before appointments
- Automated calls for non-responsive patients
- Confirm, cancel, or reschedule options

Appointment VOICE REMINDER

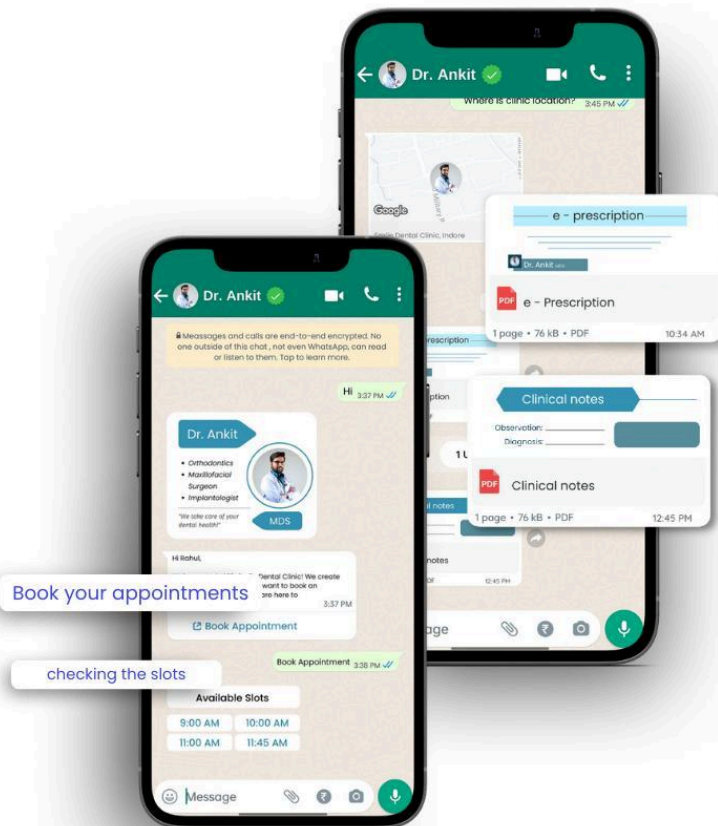

💡 *Reduces no-shows by 20–40%*

3. Prescription & Reports via WhatsApp

- Generate prescriptions in seconds
- Send PDFs directly to patients
- Share reports and follow-ups easily

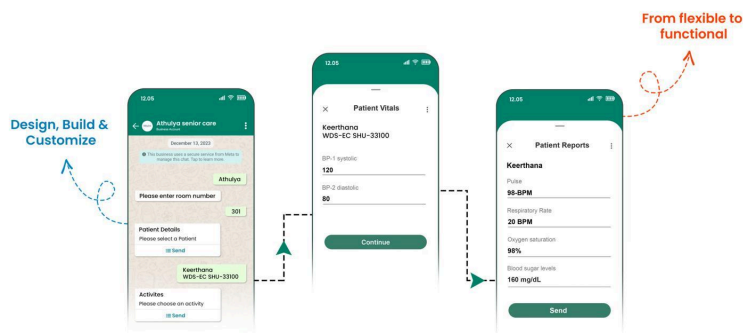

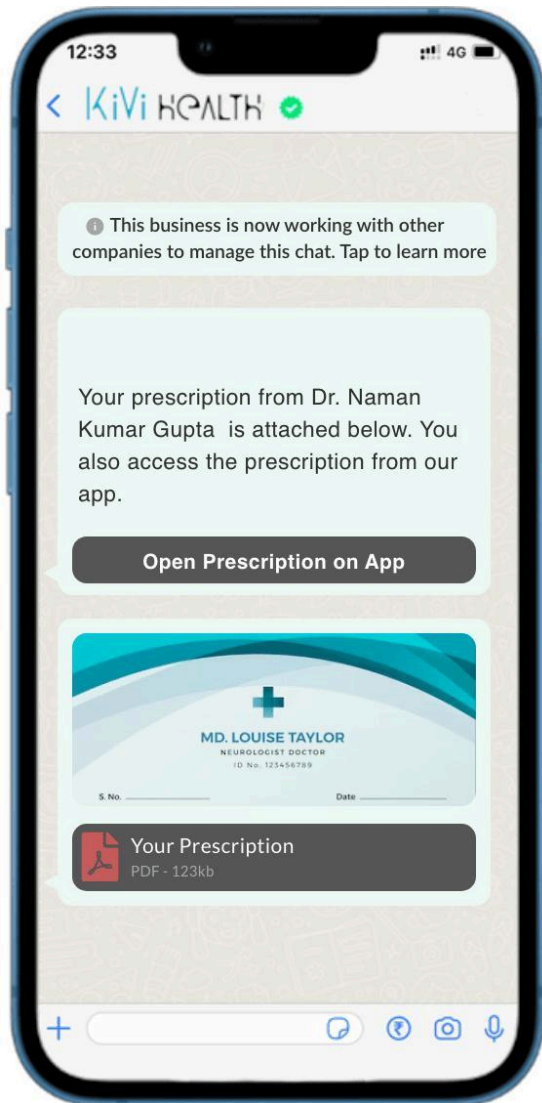

Book your appointments

checking the slots

Available Slots

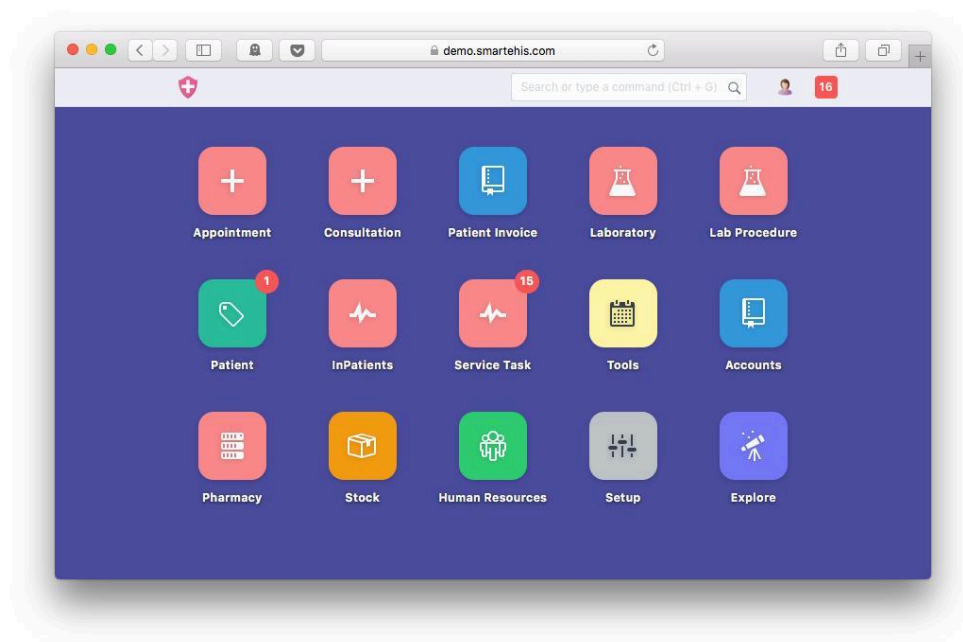

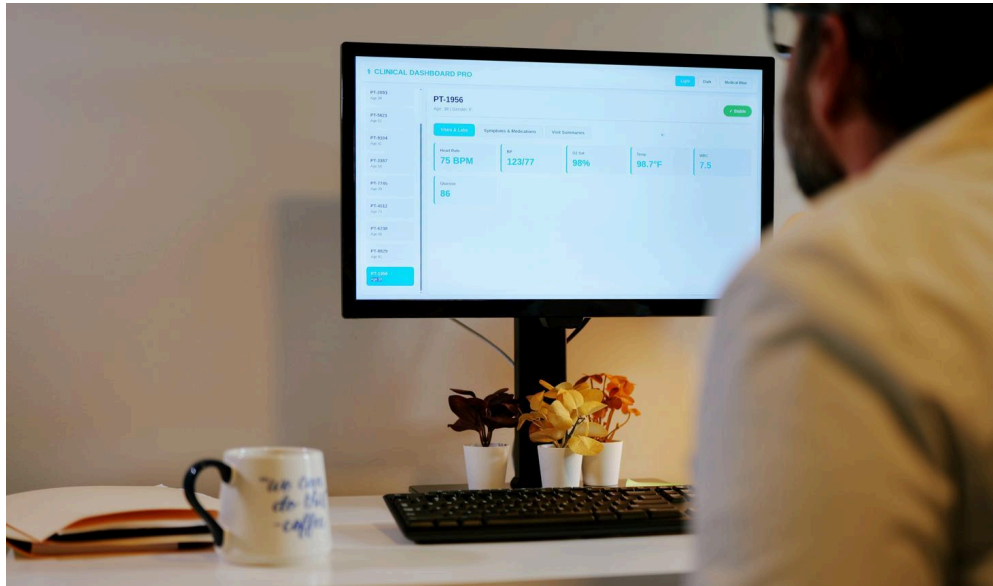

9:00 AM 10:00 AM
11:00 AM 11:45 AM

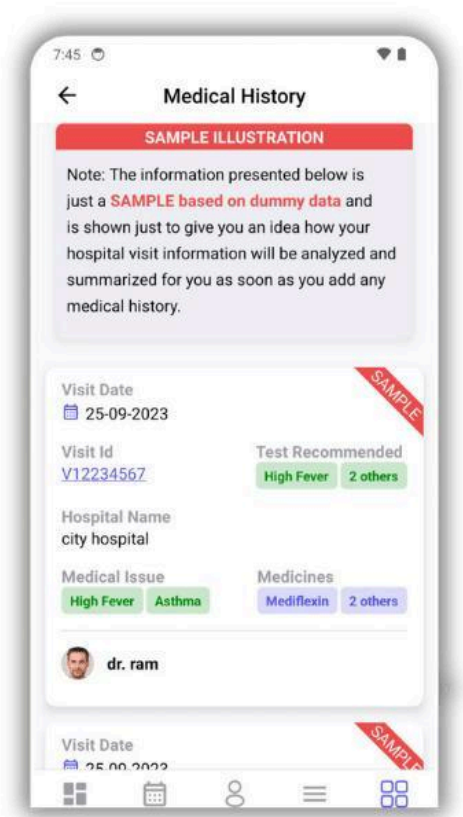

Athulya bypassed costly App development and instead chose BizMagnets, making their operations more efficient on WhatsApp.

💡 Paperless, fast, and professional

4. Patient Record System (Lightweight EMR)

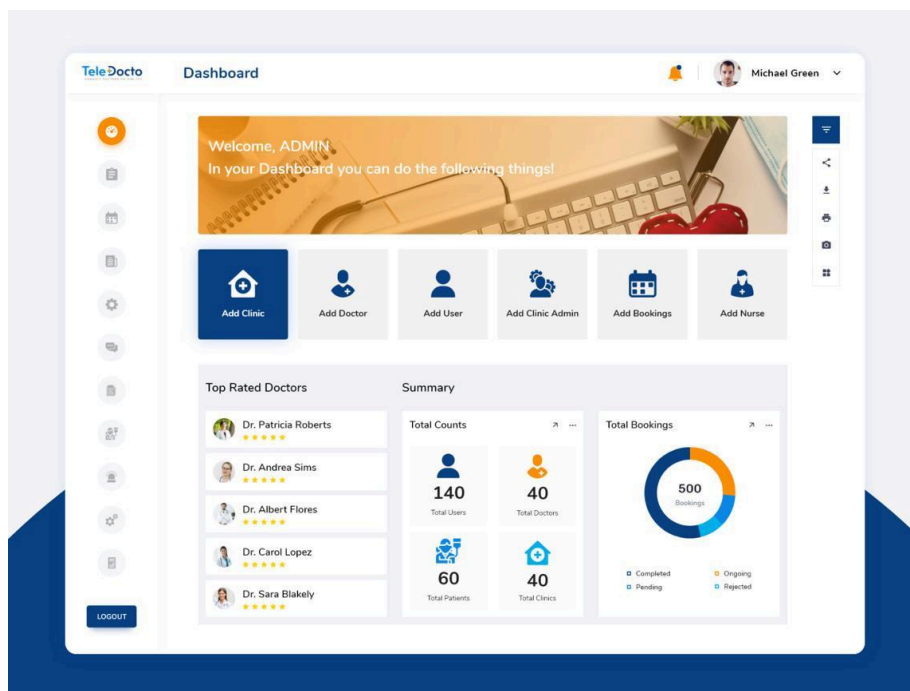

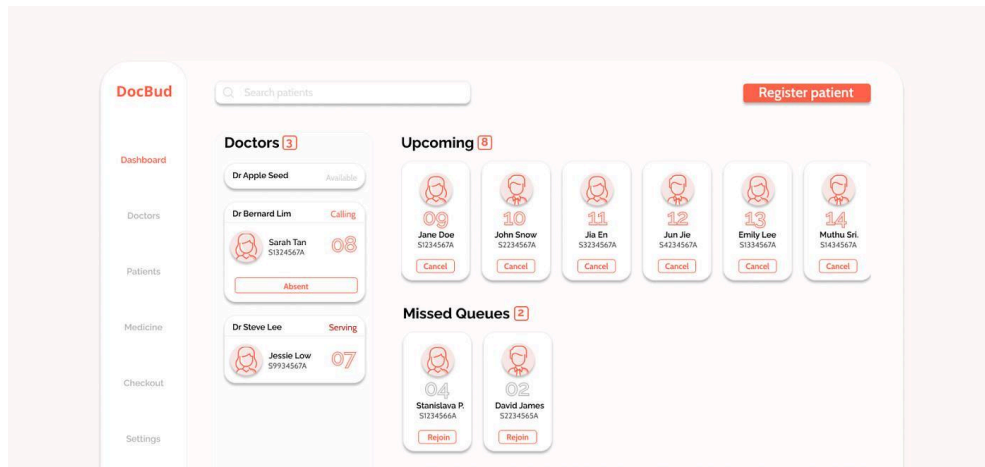

6

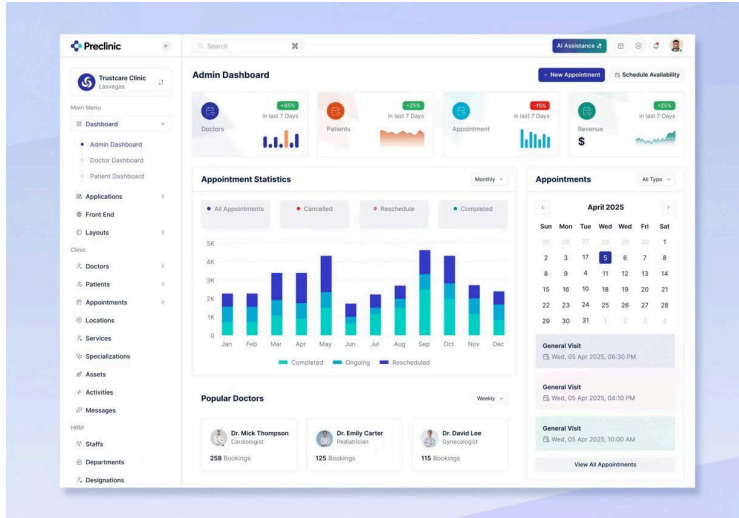

- Stores patient history, prescriptions, and notes
- Quick access using phone number
- Timeline view for easy consultation

💡 *No complex EMR—just what doctors need*

5. Appointment Dashboard (Control Center)

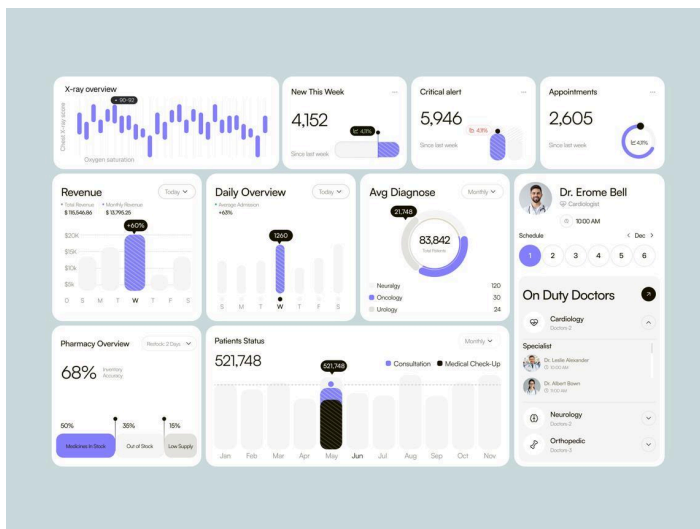

7

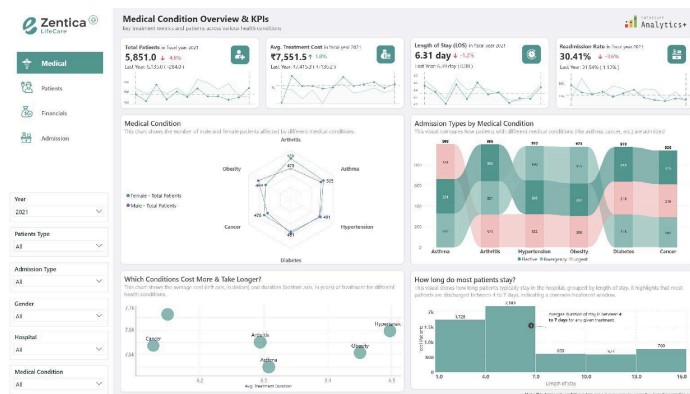

- View all appointments in one place
- Status tracking (confirmed, waiting, completed)
- Easy rescheduling and updates

💡 One screen to manage the entire clinic

6. Owner Dashboard (Money View)

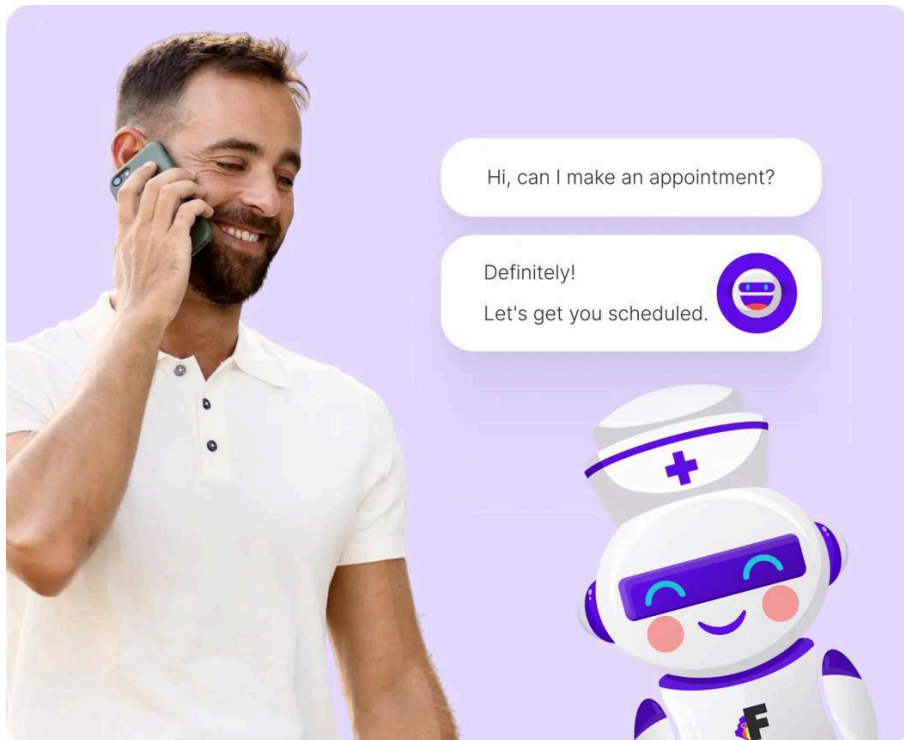

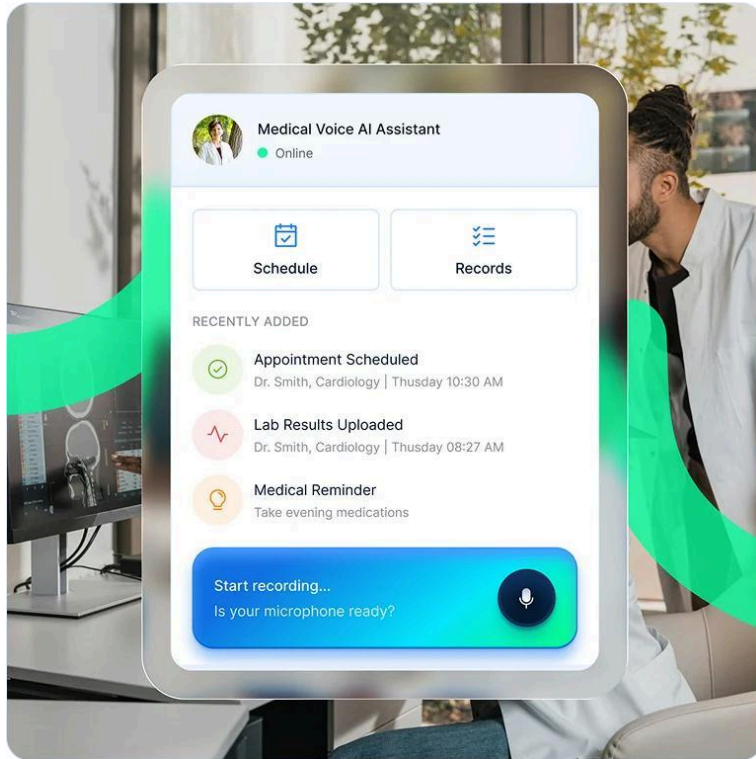

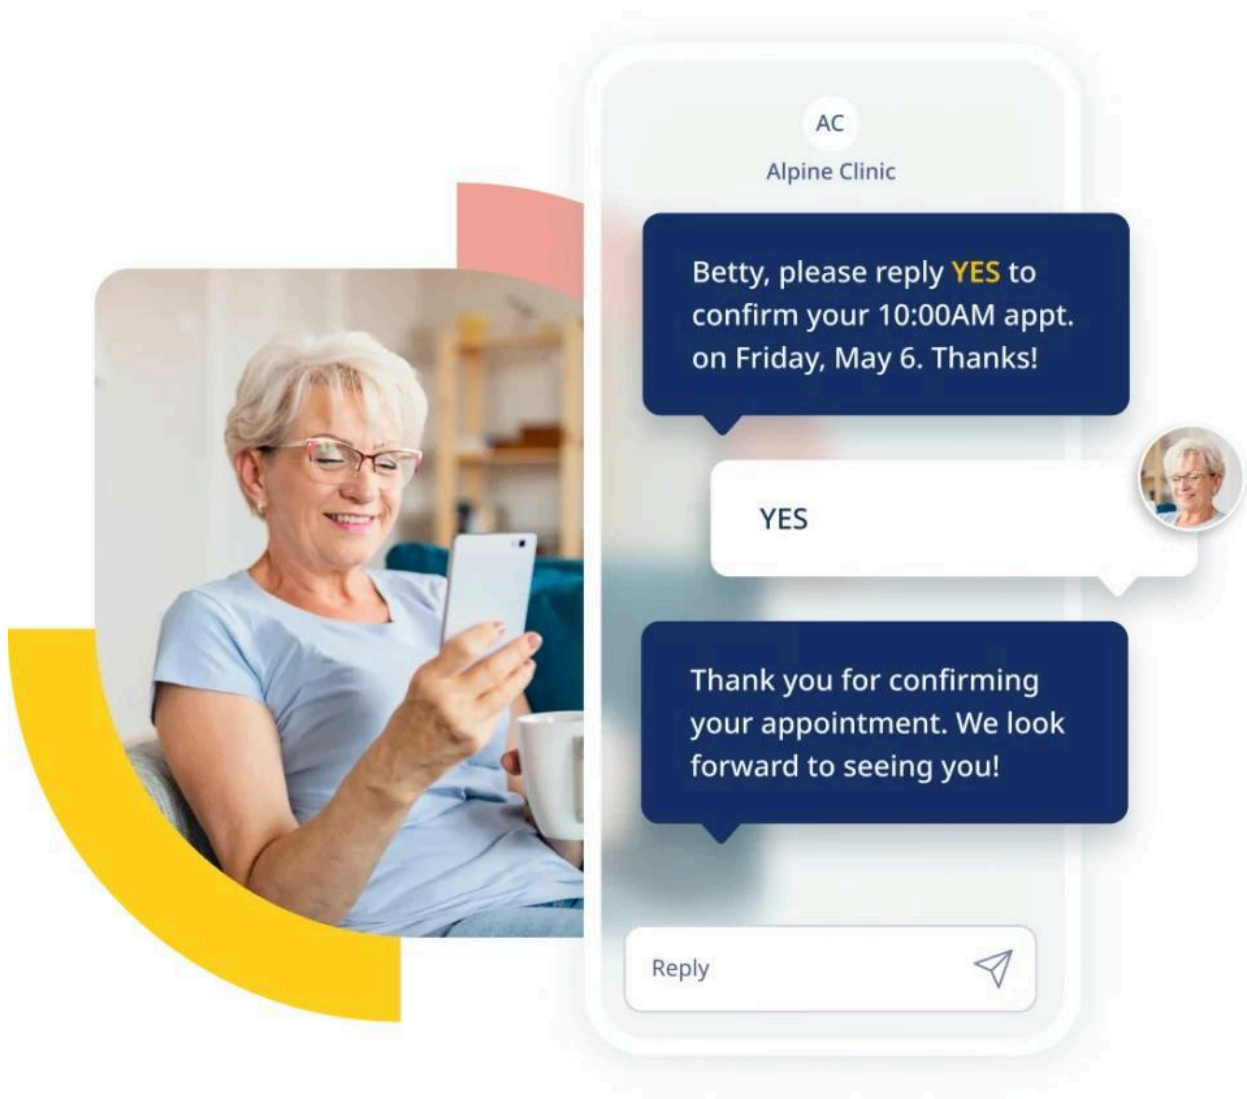

6

- Daily and monthly revenue tracking
- Patient volume insights
- Missed appointment analytics

💡 *Clear visibility into clinic performance*

📞 7. Automated Calling Agent (Voice Assistant)

7

- Appointment reminder calls
- Missed call auto-callback booking
- No-show recovery calls
- Option to connect to clinic staff

💡 Captures patients who don't respond to WhatsApp

HOW IT WORKS (SIMPLE FLOW)

1. Patient books via WhatsApp or call
 2. Appointment is saved in the system
 3. Automated reminders are sent
 4. Doctor consults patient
 5. Prescription shared via WhatsApp
 6. Revenue and data tracked in dashboard
-

BUSINESS MODEL

- ₹999/month → Basic (appointments + dashboard)
- ₹1999/month → WhatsApp automation
- ₹2999/month → Calling + analytics

👉 Affordable, scalable, and high ROI for clinics

TARGET CUSTOMERS

- Small clinics (1–3 doctors)
- Dental, dermatology, general physicians
- Diagnostic centers

💡 *Fast decision-makers, high adoption*

KEY ADVANTAGES

✅ WhatsApp-First Approach

No learning curve—clinics and patients already use it

✅ Dual Channel (Message + Call)

Covers both digital and non-digital patients

✅ Revenue-Focused

Directly reduces no-shows and increases bookings

✓ **Simple & Fast**

Works in minutes, not weeks

✓ **Built for India**

Designed for real clinic workflows and behavior

FUTURE ROADMAP

Short Term

- Online payments integration
- Multi-doctor scheduling
- Advanced analytics

Mid Term

- AI-based patient follow-ups
- Smart rescheduling predictions
- Voice AI (natural conversation booking)

Long Term

- Teleconsultation integration
 - Pharmacy & lab integrations
 - Full clinic ecosystem platform
-

FINAL POSITIONING

👉 **“ClinicOS is not software—it’s a digital receptionist that works 24/7 on WhatsApp and calls.”**

WHY IT MATTERS

Clinics don't need more software.

They need **fewer headaches, more patients, and better revenue visibility.**

ClinicOS delivers exactly that.
